

3.6.2020

Dear Parents and Carers of children in Nursery & Reception (EYFS), Year 1 and Year 6.

I hope you are all well and safe and have been able to enjoy some of the lovely sunshine we have been having. We are hoping to begin our careful phased return back to school for some year groups from Monday 8th June.

As you know, **the safety of our children, families and staff is our number one priority**, we have therefore worked extremely hard to put in place the following measures to welcome you and your children back. Please read carefully, some of this information is the same as in my last letter but some of it is new.

- **Year groups will be admitted on the following days, Nursery will start on Monday 8th June, Year 1 on Wednesday 10th June, Reception on Thursday 11th June and Year 6 on Monday 15th June.** This is so we can support you and your children with the new routines as we build up the school intake safely.
- The **start and collection times of the day** will be different for each year group, so that parents/carers do not cross with each other. Please check your child's class in the grid below to see when and where you should enter the school:

Who	Arrival	Departure	How
Nursery am	08:45	11:00	Front gate then normal side entrance to nursery
Nursery pm	13:00	15:15	Front gate then normal side entrance to nursery
Foundation Stage 2 Class F2 RT	09:30	14:30	Front gate then side entrance to nursery
Foundation Stage 2 Class F2 JG	09:30	14:30	Front gate then via playground to F2JG door
Year 1	09:15	14:45	Front gate then playground to doors of 1OW, 2SS and 2BP
Year 6	09:00	15:00	Back gate and then back door entrance

- **If you are late**, you will need to come at **10am** and queue outside the school office and wait.
- **Only one parent/ carer may bring a child to the school** and you will unfortunately not be able to go into the classes. If your child does not settle, you will need to take them home, as staff will be unable to help you with handling your child - such as holding their hand or to give them a reassuring hug. You can then try again on the next day.

- **Children will not be able to touch staff** and must stay, if possible, 2 metres away from them.
- You will be required to **queue 2 metres apart** from one another.
- **Children will be grouped in 'bubbles'** (small classes of 9-12 children initially). These 'bubbles' will stay as a unit, they will not interact with other 'bubbles', they will have the same members of staff to a bubble. These members of staff may not be your child's usual teacher. They will have their playtimes and lunchtimes as a 'bubble'. Whilst we can try and separate children in the class, children will be split into the same smaller social groups of 4 or 5 children outside to play non-contact activities.
- Your child may not be with all their usual friends in their 'bubbles' but we will try to ensure they have some of their friends.
- **There will be no full time places for nursery children.** This is because they cannot have contact with two different 'bubbles'.
- **Nursery session times will be shorter** so that the staff can change all equipment and clean before a different set of children come in the afternoon. There will be no lunches in the Nursery.
- Classes will have less desks and chairs in them for fewer children; **they will be spaced out** so that children sit separately. **Children will not be allowed to move freely around their classrooms in main school.** This is not possible with our very youngest children in Nursery and Reception classes.
- Soft furnishings and equipment that cannot be wiped, such as cuddly toys in the nursery, will be removed.
- Children will have a wallet that will have their pencils etc in so that we can **limit the sharing of resources.** This will not be possible in the early years as they use a wide variety of equipment all the time.
- **Children will not be able to bring reading books and diaries** between home and school at the moment. However, children can share their work with their teacher via Seesaw.
- **Children can bring their own water bottles** or they can use their school one. The main difference here will be that they will need to take them home and bring them back. We will not be cleaning water bottles at the moment.
- We have **strict cleaning rotas** and personal hygiene procedures in place. Your child will be expected to wash their hands as they come into their class and throughout the day.
- Children may see staff wearing **PPE** if they have to administer first aid or if a child is showing Covid-19 symptoms and needs to be isolated, whilst we wait for parents/carers to collect.
- Only one person at a time can come into the school reception area. It is better to phone if possible.

School Meals

Children will have packed lunches for the first two weeks at least and eat those in their classrooms. If you are eligible for Free School Meals and presently are in receipt of vouchers, when your child returns to school, you will **no longer** be able to claim these. However, if you decide that your child is not returning, you can still claim your FSM vouchers. All Reception and KS1 children have a free meal in school whether, as a family, you are eligible for FSM or not. Year 6 families will need to pay for their meals if they are not eligible for FSM, we will

be sending out information about how you can pay for your child's meals using a new system next week. Please do not bring money to pay for dinners into school. Children may still bring packed lunches.

Home-Learning

If you decide you do not want your child to return then they will continue to receive home learning packs and have contact with a member of staff through the online learning platform Seesaw. Children who are in school will not need home learning packs but will still be able to use Seesaw.

Hygiene practices between home and school

As mentioned earlier we will be following strict guidelines on regular handwashing in school. However, there are also things that you can do to avoid the potential transmission of the virus between home and school.

- As soon as you arrive back into your family home, ensure that your child along with yourself washes their hands.
- Ask your child to change their clothes and put them in their wash basket.
- If possible it would be good to have a clean set of clothes each day but if this is not possible, hang your child's clothes up away from everyone and then they should be ready to wear again in a couple of days.
- Year 6 should not wear their blazers as these cannot be washed easily.
- Your child may also want to have a shower as soon as they get home; this is a good hygienic practice when your child has been in a busy environment with other people.
- Make sure that their school water bottle and packed lunch (if they have one) are wiped cleaned as soon as you come home.

These simple practices should help protect bringing the virus into your home.

If your child is ill

If your child is ill and showing coronavirus symptoms (new continuous cough, fever, loss of sense of taste or smell), you **MUST NOT** send him/her to school. We all have a responsibility to protect our community by isolating and following government guidelines, if a member of your family shows COVID-19 symptoms they need to isolate for 7 days and the rest of the family should isolate for 14 days.

If your child starts to display symptoms in school, they will be removed from the class and will be kept in isolation in the front meeting room, where he/she will wait for you to collect them. You will also see the member of staff attending to your child wearing PPE. We will help you in arranging a test for your child. This will be very important, as if your child's test was to come back positive, then the rest of their 'bubble' would also need to isolate. We would in effect close that 'bubble' down for 14 days to prevent any further spread of the virus.

Should I send my child to school?

The Government are encouraging parents to send their children to school when they decide that it is safe to do so, whether that be June 8th or later. I encourage you to think very carefully about what is right for your child, school is the best place to educate your child. However, what is important for you to consider is, that despite all the measures we will put in place, it is **impossible for me to promise you that your child will always socially distance from others, particularly the young children.** The Government have also acknowledged this point. We will minimise the risks by having your child in a small group.

Attendance for the summer term is not statutory and there will be **no fines for non-attendance.** Your child will not lose their school place. Thank you to those of you that completed our survey for the first phase of opening, if you change your mind please let the office know. Please ring the office to let us know if you have changed your mind about your child returning to school, as we will need to alter the groupings of children accordingly into bubbles. **It is important that you let us know if you are sending your child to school and that you do not just arrive at school,** we may not have a group for them to go into immediately. We may have to change staffing to create new groups if numbers of children increase, we would be unable to do this at short notice.

Things will keep changing as numbers increase and we update our risk assessments. The arrangements we put in place for the first phase of opening will change as we admit more children as the school opens further. We may also have to change arrangements if we find ourselves with staffing shortages.

Please talk to your children about the many things contained in this letter to help prepare them, we have also produced a little power point to help you explain.

We look forward to welcoming you back from next week.

Until then take care and please keep safe,

Teresa Shrestha
